

**Complimentary Webinar Organized by InnovatioCuris**  
**on**  
**“Emerging threats of cyber security in the health sector”**  
**Thursday 11<sup>th</sup> May 2017 (5:30 PM- 6:30 PM) IST**

**About Organiser**

InnovatioCuris which is commonly known as “IC” is a unique organization, which brings deep healthcare expertise, a scientific rigour on applying global innovation models & management processes by leveraging IT to deliver healthcare at an optimum cost. Our Vision is to find methods, tool and techniques to deliver Qualitative health care at optimum cost at all levels.

In IC we have partnered with world-class academic institutes, government bodies, NGOs and healthcare organizations to create a collaborative ecosystem for piloting new interventions (systems and processes) to improve the healthcare delivery.

**What’s in it for you?**

IC has started awareness of latest trends of Innovations in health sector by conducting complimentary webinars. We brings you its sixth webinar on **“Emerging threats of cyber security in the health sector”**. In future Global and Indian experts would be invited to share their knowledge, experiences in Healthcare Innovations through free webinars.

**In this webinar we will discuss:**

We are seeing phenomenal technology shifts and human life is greatly impacted by them. Health sector is not untouched as the health systems now have deep IT integration and care givers increasingly rely on the information shown by digital systems. Hence, any compromise to the integrity of such systems would lead to wrong diagnosis or treatment. This webinar covers some of the early signals about the kind of threats out there relevant to the health systems.
